RETENTION of badly waste matter in the blood is referred to as a "toxic condition." This often gives rise to a dull, languid feeling, and sometimes toxic backaches and headaches. That the kidneys are not functioning perfectly at such times is often shown by burning or stinging passage of secretions. Many people have learned to assist their kidneys in ridding the blood of these toxic products by drinking plenty of pure water and the occasional use of a stimulant diuretic. Doan's Pills are a stimulant diuretic and act on the kidneys only. They have earned a national reputation. Ask your neighbor!

Hocking Valley Officials Seek to Fix Responsibility for Derailment of Six Cars

Accident South of Upper Sandusky Does Little Damage, but Causes Three-Hour Delay; Passenger Trains Routed Over Pennsylvania Lines Through Bucyrus

Damage to the equipment of six cars of the Marion Western local on the Hocking Valley Railroad at 8:20 p.m. today morning, these cars south of Upper Sandusky, has not yet been determined by Hocking Valley officials, according to reports today.

The wreck resulted in the delay of northbound freight trains of the Hocking Valley for a period of about three hours. The trains were held in the Marion yards.

Southbound passenger trains, due here at 11:25 a.m. in the morning, were delayed at Upper Sandusky to Bucyrus and sent south over the Pennsylvania Railroad, thus avoiding the scene of the wreck.

Two Hocking Valley cars, which were at the scene of the wreck, were damaged. One of the cars, a passenger car, was damaged. The other car, a freight car, was damaged.

An investigation was under way today to determine the cause of the wreck.

Final Excursion
The final excursion of the season over the Pennsylvania Railroad from Columbus to Sandusky and Cedar Point, via Marion, was operated Sunday, being promoted by a large number of Marion persons and residents of other cities and villages along the line.

The excursion has been operated over the Pennsy lines since the first of the season.
